HSCC

An ISO 9001:2008
Mini Ratna Company

World Class Hospitals
Concept to Commissioning

A HOUSE JOURNAL OF HSCC
Volume 36, January, 2017 – June, 2017

From the CMD's Desk

With the release of this edition of In-house Journal, It gives me immense pleasure to place on record the excellent growth that company continues to maintain. During the FY 2016-17, company achieved total income of Rs. 1564 Cr. (unaudited) as compared to Rs. 1107 Cr. last year, registering around 40% increase which is remarkable and much beyond the industry's average growth.

This has been rendered possible, by company opting for measures towards strengthening and adopting certain technology driven shifts such as digitization to enhance business performance. These have enabled the company to build agility and be closer to our clients thus - being proactive & responding quickly to the changes.

Global Business

The company has been exploring business opportunities abroad including African countries and the SAARC group of countries since last few years and the efforts have now started materialising on ground.

Recently, HSCC secured prestigious projects in Mauritius for the overall revamp of healthcare infrastructure in the Island nation. I am delighted to mention that HSCC's selection was based on its proven track record of design and implementation of healthcare infrastructure projects in India and abroad. The Ministry of Health & Quality of life, Mauritius has assigned HSCC the task of transforming the existing health services into a modern high performing IT-enabled quality health system with a view to improve the well-being of nation's population.

We feel proud to say that company is now placed amongst the world's top healthcare consultants & organised set-ups who have completed

over 80 health care projects (Including feasibility studies for hospitals & medical colleges) and has more than 100 healthcare infrastructure projects under execution both in India & abroad.

Corporate Governance

The philosophy of the company has been to ensure transparency in its dealings and compliance of country's laws and regulations in order to promote ethical conduct of business i.e. observing transparency, integrity, professionalism, accountability and proper disclosure.

Acknowledgement

Our sincere gratitude & thanks to the Ministry of Health & Family Welfare, Govt. of India for the valuable guidance, support and cooperation extended which we hope would be forthcoming in future as well. I would also like to extend my sincere gratitude & thanks to our shareholders, esteemed clients including Ministry of External Affairs Govt. of India, Govt. of Mauritius, Govt. of Myanmar, Govt. of Srilanka, Govt. of Nepal and various State Govts. & Autonomous Bodies for their support. We appreciate the trust and confidence reposed by them in the company.

I wish to recognize the efforts put in by all our employees that are behind the company's growth & excellent results. Let us continue with the disciplined hard work in our march towards attaining commanding heights and a better & prosperous tomorrow.

Best wishes for a prosperous future.

MESSAGE

I am happy to know that Hospital Services Consultancy Corporation (HSCC) is publishing 36th edition of its in-house Journal.

It is indeed a proud moment to note that HSCC has been doing excellent work in development of infrastructure facilities in the hospitals and healthcare infrastructure projects. Over the years, the services rendered by the company setting up of state-of-the-art healthcare infrastructure have helped to augment the health facilities of the country.

I convey my best wishes to the management and staff of HSCC for its endeavour towards providing quality service in healthcare and other social sector.

Master Plan & Comprehensive re-development of Victoria Hospital

Victoria hospital is one of the largest health care facility in Mauritius with an inpatient capacity of 1000 beds. Constructed mostly in barracks like single storey structures spread over an area of 25 acres, the Victoria Hospital complex is situated in Candos in the district of Plaine-Wilhems. It provides services to a population of about 30% of the whole island. Hon'ble Dr. Mohammad Anwar HUSNOO, Minister of Health & Quality of Life, Govt. of Mauritius sought HSCC's help in developing Master Plan of the campus considering requirements of another 40 years. HSCC will not only prepare the Master Plan but will also be actively involved on re-development of the campus. Sh. Gyanesh Pandey along with team of Architects & Engineers has visited the Hospital and had detailed discussions with Dr. B. Ori, Director, Victoria Hospital regarding issues faced by the Institute and future development plans. The hospital currently have 25 speciality besides paramedics, diagnostic, radiology & blood bank services. The only cancer hospital of Mauritius is also functioning from this hospital.

Dr. B. Ori & Sh. Gyanesh Pandey, discussing Re-development Plan

HSCC accordingly prepared the detailed master plan & gave presentation to Hon'ble Minister on 5th June 2017.

Jodhpur. The architectural representation was from the Ministry of Health and Family Welfare, Govt. of India which included Sh. Sudip Shrivastav, Director, PMSSY; Sh. Rajiv Kanujia, Sr. Architect, CDB; Sr. Mukesh Bajpai, Sr. Arch, CDB; Sh. Yashwant Kumar, Consultant (Engg.). Perkins Eastman from USA, being the Design Consultant for the three new AIIMS, explained and briefed the gathering.

The three AIIMS are under being set up the Pradhan Mantri Swasthya Suraksha Yojana (PMSSY) which was announced in 2003 with objectives of correcting regional imbalances in the availability of affordable/ reliable tertiary healthcare services and also to augment facilities for quality medical education in the country.

Renovation of HSCC Corporate Office

The first essential step towards improvement of employee productivity is to create an enabling environment in the establishment. The desirable congenial environment is a function of what is known as ergonomics. Ergonomics is the study of the relationship of employees and the physical environment of work in the establishment. It encompasses workstation, tool and work-flow design to maximize efficiency and comfort. Any effective and successful business understands the importance of productivity in the workplace. Being productive can help the firm increase and utilize the capacity of the human resources it has.

In order to provide such a congenial environment, the seating arrangement, work stations, meeting areas on the 1st and 2nd Floors of HSCC Corporate Office have been redesigned that has had positive impact on productivity and level of physical well-being of the employees.

Corporate Vigilance

Vigilance is keeping a watchful eye to ensure integrity and honesty in official transactions. Mostly people have wrong approach towards vigilance as they perceive vigilance as enquiry, fixing responsibilities etc. However in actual vigilance connotes watchfulness. An organization protects itself from external dangers through creating security network by posting manpower to guard against threats. In the same way the role of vigilance is to protect organization from internal dangers which are sometime more serious than external threats. Vigilance is not confined to a particular individual or setup but it is for all type of organizations.

Major type of Vigilance:

1. Preventive Vigilance
2. Punitive Vigilance
3. Detective Vigilance

1 Preventive Vigilance:

Preventive vigilance sets up procedure and systems to restrain the acts of wrong doing and misconduct in the various areas of the organization like Finance, HRD, Procurement, tendering and award of work, site operations etc. It also calls for constant review of rules, procedures and practices which afford scope of corruption. Preventive vigilance plays an important role in strengthening the vigilance set up of any organization. It means that all officials to be watchful & alert what is happening and what can happen and must sense the happening in the organization. Preventive vigilance can be strengthened by following means:

- Use of technology: The major example of this is subsidy paid by Government in case of LPG. By use of technology and transferring it directly to the account of the beneficiary, government has saved huge amount of money which otherwise was a source of corruption.
- simplifying rules and procedures,
- Curtailing discretionary powers of the employees/ reducing subjectivity in decision making.
- Improving transparency: Inviting tenders through e-tendering improves transparency.
- Work culture and work ethics: continuous educating / sensitizing officials regarding integrity and honesty will definitely improve work culture and ethics. A proper works manual periodically updated would greatly help.
- Strict accountability and its monitoring by management.
- Posting of officials with proven integrity on sensitive posts.
- Periodical rotation of officers/staff in sensitive posts.
- Proper implementation of the conduct, discipline and appeal rules like weeding out corrupt officials in public interest
- Streamlining procedures for recruitment

2. Punitive vigilance:

In punitive vigilance, the vigilance wing reacts to the complaints or information of specific instances of mala fide action. Verifies such information and then proceed against erring officials. All public servants should be honest. They also have some responsibility towards the organization to discharge vigilance functions effectively by bringing to the notice of vigilance officers about the activities of dishonest employees.

There has been a wide spread realization that punitive vigilance alone cannot be foundation of an efficient vigilance machinery. To punish and not to prevent the cause will be like pumping the water through a pump without arresting the leakages in the pipeline, which will result in wastage of water, energy and time.

3 Detective Vigilance

Conducting surprise checks, Review of immovable properties return of the individuals. Keeping eyes and ears open for any wrong doing.

Today the Public Sector Undertakings in the country play a significant role in the economic as well as social development of the country. As Government has major share holding in the PSUs, they are accountable to Parliament. They are also subject to public criticisms and criticisms in the press and media.

Under such circumstances, there is a need for a strong vigilance organization in the PSUs with a set of rules to regulate the conduct of the employees. Vigilance has to be looked upon as one of the essential components of management. It is as important a segment in an organization. Vigilance is not something external. Management should make guidelines so that flaws of the systems get minimized. It is not the purpose of vigilance to wait for lapses to be committed and then try to conduct post mortem. What is more important than punitive vigilance is preventive vigilance. In short, management should be interested in preventive vigilance measures. If adequate attention is paid to preventive vigilance side, many vigilance cases will not arise.

General Manager (Electricals)
and Vigilance Officer, HSCC

Educational Qualification:

B.E. (Electricals)

Key Qualification:

Having more than 28 years of experience in Consultancy and Projects Management in Development Sector. He is with HSCC since 2007 and still continuing as General Manager (electrical) and Vigilance officer.

Disinvestment of Public Sector in India

Introduction

After independence when economic planning was introduced India adopted the mixed economic system. The main feature of the mixed economic system is the co-existence of public sector and private sector. The Industrial Policy Resolutions of 1948 and 1956 demarcated the areas of operations of public sector and private sector. There were several objectives for building up the public sector. The objectives ranged from building infrastructure for economic development to generating investable resources for development by earning suitable returns. The motivation for expanding the public sector extended from the theory of 'commanding heights' to the provision of consumption goods at subsidised rates. Eventually public sector enterprises today encompass coal, steel & oil at one end to hospitality & tourism at the other. It was thought that by the progressive expansion of the public sector, the country would be able to move towards the socialistic pattern of society which was sought to be achieved as a goal.

Disinvestment

At the very basic level, disinvestment can be explained as follows:

"Investment refers to the conversion of money or cash into securities, debentures, bonds or any other claims on money; disinvestment involves the conversion of money claims or securities into money or cash."

Disinvestment can also be defined as the action of an organization (or government) selling or liquidating an asset or subsidiary. It is also referred to as 'divestment' or 'divestiture.' In most contexts, disinvestment typically refers to sale of a government-owned enterprise either partly or fully. A company or a government organization typically disinvestment of an asset, either as a strategic move for the company, or for raising resources to meet general/specific needs.

Difference between Disinvestment and Privatization:

There is a difference between disinvestment and privatization. Privatization implies a change in ownership resulting in a change in management. But disinvestment need not always imply change in management. Disinvestment is generally referred to as dilution of the government's stake in a public enterprise. If the dilution is less than 50 percent, the government retains management even though disinvestment takes place. It is not privatized. But if the dilution is more than 50 percent there is transfer of ownership and management. It will be called privatization. Thus disinvestment has a wider connotation than privatization. While privatization implies disinvestment but disinvestment does not necessarily imply privatization. Only when disinvestment goes beyond 51 percent, is privatization. The extent of dilution of the government's stake is determined as part of disinvestment policy.

Objectives of Disinvestment

The new economic policy initiated in July 1991 clearly indicated that PSUs had shown a very negative rate of return on capital employed. Inefficient PSUs had become and were continuing to be a drag on the Government's resources turning to be more of liabilities to the Government than being assets. Many undertakings traditionally established as pillars of growth had become a burden on the economy. The national gross domestic product and gross national savings were also getting adversely affected by low returns from PSUs. About 10 to 15 % of the total gross domestic savings were getting reduced on account of low savings from PSUs. In relation to the capital employed, the levels of profits were too low. Some of the crucial factors responsible

Biresh K Mohanty

Senior Manager (Economist), HSCC

Educational Qualification:

M.Phil in Economics
from Jawaharlal Nehru University
(JNU), New Delhi

MBA (Healthcare Services)
from Sikkim Manipal University

LLB
from Utkal University, Odisha

JRF/NET in Economics
from University Grant Commission

Key Qualification:

Having more than 22 years of, Research, Consultancy and Project Management experience in development sector. During the period, he has been associated with various projects both at national & international level. He has also Research Publications in reputed Economic Journals. He is working with HSCC since 2001, and looking after Strategic development, budget planning, documentation and planning & conceptualization of methodology and approach including qualitative and quantitative analysis, execution of system study projects, report writing and documentation of large scale healthcare projects, preparation of concept and Techno-feasibility Reports, Detailed Project Reports (DPRs)/ Expenditure Finance Committee Memorandum (EFC Memo) on health infrastructure projects.

for low profits in the PSUs were identified as: Price policy of public sector undertakings, Under-utilisation of capacity, Problems related to planning & construction of projects, Problems of labour, personnel & management and Lack of autonomy.

Hence, the need for the Government to get rid of these units and to concentrate on core activities was identified. The Government also took a view that it should move out of non-core businesses, especially the ones where the private sector had entered in a significant way. Finally, disinvestment was also seen by the Government, as a measure to raise funds for meeting general/specific needs.

The Government as such adopted the 'Disinvestment Policy'. This was identified as an active tool to reduce the burden of financing the PSUs. The main objectives of disinvestment policy outlined, included:

- To reduce the financial burden on the Government
- To improve public finances
- To introduce, competition and market discipline
- To fund growth
- To encourage wider share of ownership
- To depoliticize non-essential services

It assumes significance due to prevalence of hostile business environment, making it difficult for many PSUs to operate profitably. This also led to rapid erosion of asset value, paving way to divest early.

Why Disinvestment

The two major arguments put forth by the government, for disinvestments were, (i) to provide fiscal support and (ii) to improve the efficiency of the enterprise. The fiscal support argument runs as follows: Government's resources are limited. These resources should be devoted to areas of social priority such as basic health, family welfare, primary education and social and economic infrastructure. More resources can be devoted to these priority areas by releasing resources locked up in non-strategic public sector enterprises. The demands on the governments both at the centre and in the states were on the rise. There was need to expand the activities of the state in priority areas. It was, therefore, legitimate that a part of the additional resources needed for supporting these activities came out of the sale of shares, built up earlier by the government out of its resources.

In so far improving the efficiency of working of the enterprise was concerned, if the extent of disinvestment was such that the enterprise is privatized and management of the enterprise is taken over by the private sector it will be free from the control of the government and will be able to function more efficiently. Premise here being that efficiency in private sector is higher than in a public sector unit. Even if the extent of disinvestment is less than 50 percent so that the government retains control of the unit, the induction of private ownership can have a salutary effect on the functioning of an enterprise. It increases the accountability of management. The share-holders have expectations about returns on their investments and their expectations are to be fulfilled. This will compel the enterprise to run more efficiently and earn more profits. Flexibility in ownership structure can, in effect, impart efficiency. In fact, the induction of the public into the ownership structure can also create conditions in which there could be greater autonomy for the functioning of the public sector enterprises. Disinvestment can thus be regarded as a tool for enhancing economic efficiency.

The government of the day had resorted to PSU disinvestment in order to achieve the objectives spelt out eg.

- a. Minority sales via auctioning to institutions such as Andrew Yule & Co. Ltd., CMC Ltd. etc. Examples of minority sales via Offer for Sale include recent issues of Power Grid Corp. of India Ltd., Rural Electrification Corp. Ltd., NTPC Ltd., NHPC Ltd. etc.; these go back into the early and mid 90s.
- b. Majority disinvestments have typically been made to strategic partners; partners being other CPSEs themselves, a few examples being BRPL to IOC, MRL to IOC, and KRL to BPCL. Alternatively, these were private entities, like the sale of Modern Foods to Hindustan Lever, BALCO to Sterlite, CMC to TCS etc. Again, the stake can also be offloaded by way of an Offer for Sale, separately or in conjunction with a sale to a strategic partner, akin to minority disinvestment.
- c. Complete privatisation in a form of majority disinvestment, wherein 100% control of the company was passed on to a buyer, 18 hotel properties of ITDC and 3 hotel properties of HCI.

RECENT DISINVESTMENTS

In line with the policies enunciated, some of the recent disinvestments are as under:

NAME OF CPSES	% OF GOIs SHARES DISINVESTED	METHOD OF DISINVESTMENT	GOIs SHAREHOLDING POST DISINVESTMENT
FY 2013-14			
NHPC Ltd.	0.4	Buyback	85.96%
Engineers India Limited	10	FPO	69.37%
Power Grid Corp. of India Ltd.	4	FPO	57.90%
CPSE-Exchange Traded Fund			
Indian Oil Corporation Ltd. (IOC)	10	Cross Holding by Oil CPSEs	68.57%
National Fertilizers Limited	7.64	OFS	90%
MMTC	9.33	OFS	90%
Hindustan Copper Limited	4.01	OFS	89.95
NALCO	5	OFS	87.11%
National Fertilizers Limited	7.64	OFS	90%
State Trading Corporation	1.02	OFS	90%
Neyeli Lignite corporation Limited	3.56	IPO	90%
FY 2014-15			
NMDC		Employees OFS	
Coal India Ltd.	10	OFS	78.65%
NTPC		Employees OFS	
Hotel Corp. of India Ltd.		Employees OFS	
FY 2015-16			
Rural Electrification Corp. Ltd.	5	OFS	60.64%
NTPC	5	OFS	69.96%
Power Finance Corp. Ltd. (PFC)	5	OFS	67.80%
BDL	NA	Buyback	NA
CONCOR	5	OFS	56.80%
Indian Oil Corporation Ltd. (IOC)	10	OFS	58.57%
Engineers India Limited	10	OFS	59.37%

DISINVESTMENT IN INDIA: POLICIES SINCE THE 90'S

There has been a gradual evaluation of country's disinvestment policy, first mentioned in interim budget of March 1991; the same is as under:

1991	<ul style="list-style-type: none"> Interim budget, Government announced 20% disinvestment in selected PSUs. Their shares were sold to Mutual funds and financial institutions (UTI, EPFO, LIC etc.)
1992	<ul style="list-style-type: none"> Government decides to sell shares to FIIs, PSU employees and banks.
1993	<p>Rangarajan Committee suggests:</p> <ul style="list-style-type: none"> 49% disinvestment in PSUs reserved for public sector 74% disinvestment in all other PSUs <p>Government did not implement.</p>

1996	Disinvestment commission under GV Ramakrishna. It was a non-statutory, advisory body (similar to UPA's NAC).
1998-2000	Vajpayee Government classifies PSUs into two parts 1. Strategic: arms-ammunition, railway, nuke energy etc.: here we won't do disinvestment 2. Non-strategic: those not in above category: to be disinvested in a phased manner. Hindustan Zinc, BALCO, Maruti Disinvestment taken up. To implement above policy, Department of disinvestment setup under Finance ministry. (first there was disinvestment ministry, then department.
2004	UPA comes into power, Common Minimum Program (CMP) updates disinvestment policy <ul style="list-style-type: none"> • Sick PSUs will be revived • No disinvestment in profit making PSUs • PSUs will get commercial autonomy
2005	Whatever Money Government earns from selling its PSU shares- it'll go to National investment fund (NIF).
2005-09	Disinvestment remains stagnant because Left allies of the UPA Government stonewalled everything.
2009 onwards	<ul style="list-style-type: none"> • UPA-2 without left parties. Government resumes disinvestment process. • All PSUs can be disinvested, but upper limit: 49% • Disinvestment Method: only public offer.
2013-14	Govt. wanted to earn Rs.40,000 crores via disinvestment of Indian Oil, BHEL, NHPC, Neyveli lignite etc. but hardly managed to get around Rs.16,000 crores only. <ul style="list-style-type: none"> • Oil ministry, mining ministry, trade unions opposed the move, files were delayed. • Lukewarm response from investors because share market was down due to internal & external factors.
2014-16	<ul style="list-style-type: none"> • The Cabinet approves disinvestment of various CPSUs. • Strategic sales & Merging of similar kind of CPSUs • PSUs to be closed down. • Some loss making but viable PSUs to be revived. • The list also includes some state-owned companies. <p>Monetising assets In one of his earlier Budgets, the Finance Minister had announced a policy for the management of government investment in PSEs had been approved. "We have to leverage the assets of CPSEs for generation of resources for investment in new projects. We will encourage CPSEs to divest individual assets like land, manufacturing units, etc, to release their asset value for making investment in new projects..." "The NITI Aayog identifies the CPSEs for strategic sale. They will adopt a comprehensive approach for efficient management of government investment in CPSEs by addressing issues such as capital restructuring, dividend, bonus shares, etc. The Department of Disinvestment is being renamed the 'Department of Investment and Public Asset Management (DIPAM)'."</p> <p>Ambitious targets While in 2016-17, the government had lowered the revised estimates for disinvestment to 45,500 crore, for the next fiscal it targeted 72,500 crore.</p>

Source: compiled from various govt documents.

DISINVESTMENT: ARGUMENTS & COUNTER ARGUMENTS

ARGUMENTS	COUNTER ARGUMENTS
<ul style="list-style-type: none"> • Private sector cannot achieve equal distribution of resources for all classes. • Private enterprises only focus on profit maximization. They won't cater to poor people. • Government, therefore, needs to control all or some industrial sectors. 	<ul style="list-style-type: none"> • Such Government controlled units cannot compete in free market economy due to political interference and price control mechanisms. • Ultimately more public money is wasted in running these loss making entities.

<ul style="list-style-type: none"> Government's dividend income will decline. (Because they'll have less shares). Consequently, Fiscal deficit will increase. 	<ul style="list-style-type: none"> Whatever "dividend" Government earned so far compared to that, Government has spent far more (crores rupees) to revive these PSUs. There is no point in throwing good money after bad money.
<ul style="list-style-type: none"> A survey indicated 0.5% retail participation (i.e. Aam Admi investment) in equity market. Meaning, only Large corporates and financial institutions will benefit from this drive. It'll not help in "financial inclusion" 	<ul style="list-style-type: none"> Absurd logic, that just because corporates will benefit, we shouldn't begin disinvestment. Government already taken plenty of initiatives on financial inclusion front.
<p>The funds received from disinvestment are used to finance fiscal deficit. This is unhealthy and short-term practice. It is said that it is equivalent to selling 'family silver' in order to meet short term needs.</p>	<p>Letting go of these assets is best in the long term interest of the tax payers as the current yield on these investments in abysmally low. Even if the funds from the sale are not utilised for bridging fiscal deficit, a much better utilisation of these funds would be investments into critical sectors such as healthcare, education and infrastructure or for retiring government debt rather than letting the low yielding capital remain locked in these assets.</p>
<ul style="list-style-type: none"> After disinvestment, employees of PSUs will lose their jobs If board of directors have many private sector experts- they may approve plans to reduce staff strength, to increase profitability. 	<ul style="list-style-type: none"> Past privatisations have shown that these fears are totally unfounded. Overstaffing, one of the main reasons why PSUs don't make optimum profit. At some point we've to swallow the bitter pill. Besides, such employees are given attractive VRS offers.
<p>Disinvestment would lead to private monopolies</p>	<p>Dragging the logic too far. Unlikely to happen in today's world. Specialised agency of Govt is always watching and punishing the firms that try to create monopoly or oligopoly.</p>
<p>Complete Privatisation results in a situation where political compulsions may make companies being sold cheap to preferred parties.</p>	<p>The process followed for Privatisation needs to be very fair and transparent to ensure a situation such as this does not arise.</p>
<p>A majority stake sale done to another CPSE results in no real change in ownership, and is thus just hogwash.</p>	<p>This is fair to some extent, though it must be realized that some of the CPSEs are very well run, competitive and profit making. Thus, a sale of a loss making CPSE to a well performing CPSE can be a proposition well worth considering.</p>
<p>Public Offer being the chosen approach for Disinvestments does not yield the best realisation on the assets and is a far too time consuming process. Auctioning to financial institutions (QIBs) should be the preferred modus operandi since it gives the best realisation on the assets, and has minimal transaction cost.</p>	<p>While the realisation on assets might be higher in case of an auctioning process, it must be remembered that the Government is not a private enterprise and hence should not be looking at short-term gains. It should look at the greater good and sell these stakes by public offers to increase retail participation in the capital markets as well as to increase the depth and width of the capital markets. In any case, the loss is minimal as very small stakes are being sold. The real gains for the government lie in the appreciation post-listing. A look at the PSU IPOs since 2004 with a trading period of over 1 year- The value of the government holding, courtesy the market, has gone up nearly 3 times from Rs. 2,38,124 crore on the issue date to Rs.4,00,000 crore (as on 14 March 2017).</p>

In view of the foregoing, can be said that, PSUs showed better performance in the post-reform period. The better performance can attributed to rising competition that forced PSUs to improve their performance by ensuring high productivity and reducing cost of production. However, PSUs have not been free from criticism; the controversies and criticisms against disinvestment, however, can be largely overcome through adoption a transparent mechanism.

BIRESH K MOHANTY
Sr. Manager (Economist)

HSCC Team's Tour to Mauritius

Consequent upon a meeting held on 30th Sept., 2016, in the Mauritius High Commission, between the Hon'ble Minister of Health & Quality of Life (Mauritius) and the CMD-HSCC regarding development of existing health infrastructure in Mauritius, an invitation was extended for deputing a multi-disciplinary team of HSCC professionals to study the health scenario and hold discussions with the concerned.

In pursuance thereof, a 4-member team led by Shri Narendra Kumar (DGM-BD) with Shri B. K. Roy (DGM-Civil), Shri B. K. Mohanty (SM-Economist) and Shri Jayendra Kumar (Dy. Manager-Arch.) as members toured Mauritius between 1st & 5th Nov., 2016. The team made a courtesy call to The Indian High Commission, and meeting the Hon'ble Minister of Health & Quality of Life. It met the officials concerned and held discussions that facilitated identification of cross-section of health facilities e.g. major hospitals, community clinics etc., representative of the existing health infrastructure in the country, to be visited by the HSCC team.

The team visited the identified facilities to gain first-hand account of the country's health infrastructure; it then held discussions with the concerned to ascertain the problems faced and confirm the team's views and findings. The three major hospitals – Victoria hospital; ENT Hospital – Vacoas; New Regional Hospital, Flacq; Moka Eye Hospital; are amongst the facilities visited by the team.

The team was of the opinion that Mauritius offers excellent infrastructure that has prompted global healthcare companies to invest in multi-specialty and super-

specialty centres of excellence to cater to the growing healthcare needs. Further, presence of highly-trained personnel with globally recognized qualifications, state-of-the-art infrastructure, and encouragement the joint ventures/alliances with firms of international repute receive lend attractiveness for Mauritius to be promoted as a Medical hub. Opportunities also exist for establishing hospitals/centres e.g. multi-specialty and super-specialty centres, diabetes research & treatment centres, dental care facilities, wellness centres & health resorts etc.

It is expected that the team's findings shall enable the Authorities in furtherance of healthcare infrastructure development; it may also open up business opportunities for Mauritius through Medical Tourism.

Jayendra Namdev

Dy. Manager (Arch.), HSCC

Bachelor in Architecture
(1999-2004)

MBA- Real Estate
(2007-2009)

Experience

Experience: Around to 4.5 years (Oct 2004 to January 2009) in Projects working private organizations. During this period, worked on projects- Sports Academy, Jay Pee Greens, Greater Noida, Office Building for Fujitsu India Pvt. Ltd., Noida, and Various Institutional & Residential Projects.

- Currently works HSCC (since, Feb 2009); Projects schedule
- 100 Admission Medical College at Naharlagun, A.P. & Pali, Rajasthan.
- Up-Gradation of National Centre for Decease Control, New Delhi.
- 300 Bedded LGBRIMH Hospital, Tezpur, Assam.
- Mother & Child Block, Hostel- 1, 2 & 4 Block, Surgical Block at AIIMS, New Delhi.
- Academic, Hostel cum Auditorium Block at RAKN College of Nursing, Lajpat Nagar, New Delhi.
- Auditorium, Conference Hall & Residential Blocks at NIMR, Dwarka, New Delhi.
- International Hostel at NIHFV, Munirka, New Delhi.
- Super Speciality Block at Burla, Orissa.

Holi Celebration

Words that reverberate through the country, on each and every street as the festival of colour approaches. There is vibrancy in the air, colours bring with them a level of enthusiasm and joy that picks up the mood across people.

We are no different; as Holi approached the whole team at HSCC was anticipating fun. We had a gala time. All were happy to be smeared in colours and celebrate this spirited festival with the extended work family. The enthusiasm doubled with the gracious presence of our CMD Sh. Gyanesh Pandey.

Republic Day Celebration

HSCC celebrated 68th Republic Day of India with full enthusiasm. The event commenced with hoisting of the National flag by our CMD, Sh. Gyanesh Pandey followed by the National Anthem and few inspirational words by him. All the employees were present on the occasion.

पारिवारिक मेल-मिलाप कार्यक्रम Family Get-Together Programme

सरिस्का राष्ट्रीय उद्यान Sariska National Park

पारिवारिक मेल-मिलाप कार्यक्रम दो परिवारों के मिलने, उनके बारे में जानने, आपसी सामंजस्य, भाषा-बोली, भेष-भूषा एवं खान-पान संबंधित विभिन्न विषयों पर खुलकर चर्चा करने का एक बेहतरीन मंच है, जहां कम्पनी के विभिन्न कर्मचारी और उनका परिवार एक मंच पर इकट्ठा होकर / एकत्रित होकर अपने आपको तरो-ताजगी भरा Freshness महसूस करता है। एच एस सी सी अपने कर्मचारियों और उनके परिवारों को Refresh करने के प्रति कृत-संकल्प है, उन्हें दैनिक जीवन की भाग-दौड़ से दूर कुछ क्षण सुकुन के देना, उनके लिये कल्याणकारी योजनाएं उपलब्ध करना एच एस सी सी का नैतिक दायित्व है।

इसी श्रृंखला में, दिनांक 17 से 18 जून, 2017 शनिवार-रविवार दो दिन दिल्ली से 200 किलोमीटर दूर अलवर, राजस्थान के सरिस्का राष्ट्रीय उद्यान Sariska National Park में पिकनिक से ओत-प्रोत पारिवारिक मेल-मिलाप कार्यक्रम का आयोजन किया गया। सरिस्का बाघ अभयारण्य भारत में सबसे प्रसिद्ध उद्यानों में से एक है। इस क्षेत्र में शिकार करना पूर्णतया वर्जित है, 1955 में इसे वन्य-जीव आरक्षित भूमि घोषित किया गया था तथा बाद में इसे 1978 में बाघ परियोजना योजना रिजर्व का दर्जा दिया गया।

महाराजा सवाई जय सिंह जी के महल “ सरिस्का पैलेस ” Sariska Palace जिसका निर्माण सन् 1892 में किया गया था, जहां बेहतरीन नक्कासी, फव्वारों, सुन्दर बाग-बगीचों एवं लाइटों से सुसज्जित विशाल होटल में कार्यक्रम का आयोजन किया गया। कार्यक्रम के शुभारम्भ में अपने अध्यक्षीय उद्घबोधन में कम्पनी के अध्यक्ष एवं प्रबंध निदेशक श्री ज्ञानेश पाण्डेय तथा उनकी धर्मपत्नी श्रीमती स्नेहलता पाण्डेय द्वारा कम्पनी के समस्त कर्मचारियों और उनके परिवारों को उनकी उपस्थिति और कार्यक्रम को सफल बनाने के लिये शुभकामनायें दी। कम्पनी के अन्य कार्यक्रमों और गतिविधियों में भी यूँही भाग लेते हुये उनका परिवार स्वस्थ एवं मंगलमय रहे, ऐसी उन्होंने सभी को शुभकामनायें दी।

अंतर्राष्ट्रीय योग दिवस International Yoga Day

“ योग प्राचीन भारतीय परम्परा एवं संस्कृति की अमूल्य देन है। योग अभ्यास शरीर एवं मन, विचार एवं कर्म, आत्मसंयम एवं पूर्णता की एकात्मकता तथा मानव एवं प्रकृति के बीच सामंजस्य स्थापित करता है तथा यह स्वास्थ्य एवं कल्याण का पूर्णतावादी दृष्टिकोण है। योग केवल व्यायाम ही नहीं है, बल्कि स्वयं के साथ, विश्व और प्रकृति के साथ एकत्व खोजने का भाव है। योग हमारी जीवन शैली में परिवर्तन लाकर हमारे अन्दर जागरूकता उत्पन्न करता है तथा प्राकृतिक परिवर्तनों से शरीर में होने वाले बदलावों को सहन करने में सहायक हो सकता है। ”

- माननीय प्रधानमंत्री श्री नरेंद्र मोदी जी का संदेश

उपरोक्त उद्धबोधन के अनुसरण में, एच एस सी सी अपने कर्मचारियों के अच्छे स्वास्थ्य एवं उनकी दिन-चर्या को सुदृढ़ बनाये रखने के प्रति कृत-संकल्प है। कम्पनी में कॉरपोरेट निगमित दायित्व के तहत, स्वास्थ्य एवं हेल्थ-केयर से जुड़े विभिन्न कार्यक्रम आयोजित किये जाते हैं। दिनांक 21 जून, 2017 को आयोजित अन्तर्राष्ट्रीय योग दिवस के अवसर पर, श्रीमती रश्मि झा Smt Rashmi Jha, जोकि मोरारजी देसाई राष्ट्रीय योग संस्थान से योगा-एक्सपर्ट Yoga-Expert तथा स्वास्थ्य को योग के द्वारा जन-मानस को शिक्षित करने के क्षेत्र में पिछले 8 वर्ष का अनुभव है, उन्हें आमंत्रित किया गया था। योग-प्रशिक्षण के दौरान पूरे सेसन में सभी ने पूरी तन्मयता के साथ योगासन किये।

कार्यालय सभागार में सुबह 6:00 बजे अध्यक्ष एवं प्रबंध निदेशक श्री ज्ञानेश पाण्डेय एवं निदेशक (इंजीनियरिंग) श्री एस. के. जैन तथा कम्पनी के विभिन्न वरिष्ठ अधिकारी एवं कर्मचारियों की उपस्थिति में श्रीमती रश्मि झा Smt Rashmi Jha द्वारा अनुलोम-विलोम, प्राणायाम तथा योग पर आधारित विभिन्न प्रकार के योगासन करवाये गये, जिससे कर्मचारियों को काफी लाभ हुआ है। इस योग-प्रशिक्षण द्वारा कर्मचारियों में योग के प्रति जिज्ञासा देखने को मिली है, कुछ कर्मचारियों ने इसे नियमित रूप से आयोजित करने की भी दिलचस्पी दिखाई है।

इस अवसर पर माननीय अध्यक्ष महोदय का संदेश

A Massage By Hon'ble CMD on this Day

“ समस्त कर्मचारी स्वस्थ एवं निरोगी रहें, इसके लिये वे व्यायाम करें एवं योग अपनायें। ”

नव वर्ष - 2017

एच एस सी सी में नव-वर्ष समारोह प्रति-वर्ष बड़े ही हर्षोउल्लाहास के साथ मनाया जाता है। श्री ज्ञानेश पाण्डेय, अध्यक्ष एवं प्रबंध निदेशक तथा श्री एस. के. जैन, निदेशक (इजीनियरिंग) की अध्यक्षता में वर्ष के प्रथम-दिन दिनांक 02.01.2017 को कार्यालय सभागार में एक समारोह का आयोजन किया गया, जहां अध्यक्ष एवं प्रबंध निदेशक, श्री ज्ञानेश पाण्डेय ने समस्त अधिकारियों / कर्मचारियों को अपने अध्यक्षीय उद्बोधन में कम्पनी की भावी परियोजनाओं से अवगत करवाया। उन्होंने कहा कि कम्पनी का कारोबारी ग्राफ बुलंदियों को छु रहा है, जिसमें समस्त कर्मियों का महत्वपूर्ण

योगदान है। साथ ही, उन्होंने समस्त सह-कर्मियों से अपील की कि हमें आगामी वर्षों में भी कम्पनी के टर्न-ओवर और लाभदायकता को अधिकतम बनाये रखने के लिये निरन्तर परिश्रम करना है।

इस अवसर पर अध्यक्ष एवं प्रबंध निदेशक (CMD) महोदय ने समस्त कर्मचारियों को स-परिवार नव-वर्ष की शुभकामनाएं दी। अध्यक्ष महोदय ने विभिन्न विभागों में अपनी कमियों को दूर करके वर्तमान सुविधाओं को समस्त स्तरों पर सुदृढ़ बनाने पर बल दिया। उन्होंने कहा कि अगले वर्ष तक कम्पनी की वृद्धि को अधिक-से-अधिक करने के लिये हमें “मिशन 2 विजन” प्रणाली को अपनाना होगा। परामर्श शुल्क को 500 करोड़ रुपये तक बनाने के लिये निरंतर फोकस बनाये रखना है। कम्पनी लगातार मिनी-रत्न-II से मिनी-रत्न-I की स्थिति को बनाये रखकर उसे शिड्यूल “बी” कम्पनी बनने के लिये प्रयास-रत है। उन्होंने आवहन किया, “आईये, नव वर्ष पर हम सभी संकल्प लें कि अपनी समस्त परियोजनाओं और कार्यों में प्रगति और वृद्धि की दिशा को इसी तरह निरन्तर बनाये रखेंगे।”

STRENGTHENING HOSPITAL INFRASTRUCTURE

Government-run PSU Hospital Services Concessory Corporation (HSCC) has registered a massive jump in its turnover which rose over 92 per cent to Rs 1,268 crore in the last fiscal.

As the HSCC is a special purpose vehicle established for setting up of health infrastructure, through the PSU, the government is able to invest in the health sector. The annual budget of the HSCC for FY 2016-17 is Rs 1,268 crore, which is a 92 per cent increase over the previous year. The HSCC has also set up a special purpose vehicle for setting up of health infrastructure in the form of a public-private partnership (PPP) model.

The HSCC has also set up a special purpose vehicle for setting up of health infrastructure in the form of a public-private partnership (PPP) model. The HSCC has also set up a special purpose vehicle for setting up of health infrastructure in the form of a public-private partnership (PPP) model.
